

**ISMAEL BOUAOUDA RUIZ**

**CHEMICAL ENGINEER**

@ [ismaelbouaoudaruiz@gmail.com](mailto:ismaelbouaoudaruiz@gmail.com)

+34 632830769

Alicante, Spain

### OBJECTIVE

I perceive myself as a responsible and proactive individual, always seeking opportunities for collaboration and personal growth. My strongest asset lies in generating ideas and effectively contributing to team efforts to achieve favorable outcomes. While my professional experience is currently limited to internships, I am eager to adapt and continue expanding my skills in various work environments.

### SKILLS

- MATLAB
- Leadership
- Problem resolution
- Emotional intelligence

## WORK EXPERIENCE

### CHM Internship as analysis laboratory technician

2020-2020

My main tasks were taking samples, analysis of the samples and representation of the results.

### CETRA Waste treatment center

2022-2022

Control of the digester and understand the operation of a recycling plant.

Native language.

- **English**

Medium level, studied at college and high school, in continuous improvement.

- **French**

Basic level, in continuous improvement.

- **Valenciano**

Medium level.

## OTHER RELEVANT INFORMATION

To obtain my university degree, I have three subjects and the Final Degree Project remaining. Currently, I am searching for a company where I can work not only in the present but also to establish myself and grow to reach the highest positions, fully developing as an engineer. Although I don't master the native language, I trust that my skills will overcome any language barriers. An interesting hobby I can highlight is my passion for inventions and projects. Additionally, I want to mention that I have already worked for about six months in total both in the Netherlands and Germany, and my experience has been so pleasant that I have decided to return, hoping for a much longer stay this time.
